

Bat Restrictions

For all non-wood bats:

Atom - limited to 2 5/8 inch barrel diameter, NO length-to-weight differential limitation.

Bantam - limited to 2 5/8 inch barrel diameter, minus 13 length-to-weight differential limitation.

Midget - limited to 2 5/8 inch barrel diameter, minus 9 length-to-weight differential limitation.

Juvenile 1 (Junior High School ages) - 1. Bats longer than 30 inches must meet all NFHS guidelines (all bats have a 2 5/8 inch maximum barrel diameter). 2. Bats 30 inches and less in length not meeting the NFHS -3 guidelines must have a barrel diameter of no greater than 2 1/4 inches and do not require the BESR label, as adopted by the Southern Illinois Junior High School Athletic Association.

Juvenile 2 and older (High School ages and above) - limited to 2 5/8 inch barrel diameter, minus 3 length-to-weight differential limitation, which is the limitation adopted by the IHSA.
